Hi Tami,

Nice to see you at the Salmon Science Workshop. Liz Snyder apparently involved in the project. Good thing based on my previous communications with her a while back. I didn't realize Liz involved in the HIA until your email note. Liz' full contact info below (I believe still current).

Subject: HIA?

Hi Sue,

Hope you had a great Thanksgiving! I am wondering if you have heard anything about this lately? I haven't and I am not sure it is still going on or what the status is. I remember a young woman from the University was working on this, but I can't seem to find her contact information.

Any info you might have would be most appreciated.

Thanks! Tami
